## Flush Fire Rated Doors

Kent Door & Specialty, INC. is certified with Warnock Hersey (Intertek Testing Services) and has been manufacturing fire-rated doors since 1982. We have four rating available; 20 min, 45 min (C-Label), 60 min. and 90 min. (B-Label) doors.

Doors rated for 45, 60, and 90 min. are constructed using a mineral core from Georgia-Pacific. Kent Door specializes in custom size fire-doors and can usually manufacture and machine fire-doors with in a short time frame.

Our fire-rated flush doors are constructed with domestic 3-ply veneers and include species like red oak, white oak, maple, cherry, mahogany, ash, fir, and many others. We also manufacture fire-doors with moulded hardboard skins from Craftmaster in 20, 45, and 60 min. ratings.

At Kent Door we also manufacture 20 min. wood doors with 20min. wood rated frame pre-hung units. We also supply metal frame packages for 45, 60 & 90min. units.

Optional MVP (window-lites) are also available and are installed into our fire-rated doors (some restrictions apply).
